ADM-XD20 Premade Pouch Packing

2 Head Weigher 10kg/15L

The ADM-XD20 is engineered and built to local standards. It packs the large demanding premade bags that many machines fail to do. It performs best with bags that need better handling for the effects of bridging, high filling demands and rigorous settling. It can adapt to various styles of pouches that need attention.

Suitable to pack up to 10 Litres

- Pet food
- Rice, Grain
- Dried fruit and Nuts
- Frozen Foods
- Cereal
- Confectionary
- Organic foods
- Fertilizers

Features

- Stainless steel construction
- Anodised Aluminium parts
- Panasonic PLC
- Panasonic HMI Touch screen
- Automatic bag infeed drive
- Bag support and shaker
- Robust components
- Automatic program setup
- Quick changeover
- Guarding and interlocks to AS4024 standards
- Omron temperature controller
- IMS driver

Optional

- Date printer
- 2 head linear weigher 10kg/15Litre
- Gas flushing
- Vacuum sealing

Model	ADM-XD20
Bag Type	Pillow bag, Gusseted bag, Quadseal bags, Doy pouch
Bag Size	200-360(W) x 300-500(L) Up to 120(D)
Speed	Up to 15 BPM
Power Supply	415V 50Hz 4.2kW
Air Pressure	0.4m^3/min 0.6MPa
Machine Dimensions (WxDxH)	3620x800x3100
