

ADM- OUR BIGGEST SHOW YET AND HIGHLIGHTS AT AUSPACK 2019

Dear Valued Customer

ADM Packaging Automation was a proud exhibitor at Auspack 2019. We attended to many visitors across Australia and New Zealand as well as offshore offers to support our equipment. Our locally made equipment gained great support from local technology suppliers such as Sick, SMC, Intralox, Machine Knives, Festo, Millsom hoist and more who supported the show with their own stands. As united partners, great support was evident for all exhibitors who can make a difference in Automation to support the local and export manufacturing markets in Australia.

What Visitors Said

For us at ADM it was the best show yet showcasing 81sqm of the best Packaging machinery we have to offer. Most visitor qualified as quality leads with technical questions for old and new applications. Many said

"We enjoy the fact that your machine is simple and easy to operate".

"Wow, Australian made" and "Do we still build machines in Australia?"

"Can you demonstrate the equipment"

"We still pack manually and looking to Automate"

"We come a long way specially to meet with you here and see for ourself"

Comments of low maintenance and local support were also good feedback.

From all of us at ADM we thank you for visiting our stand and plan to be in touch with you over the coming weeks and months to continue our discussions in detail and support you.
