ADM AT FOODTECH QLD 2019- WHAT WE SHOWCASED

Tuesday, August 06, 2019

Dear Valued Customer

ADM Packaging Automation was a proud exhibitor at Foodtech QLD 2019. We attended to many visitors from all over the state. We exhibited the ADM-DP30 Pouch packaging machine with an Auger filler for packing powder. The system was connected to power and air and demonstrated throughout the 3 days.
Many visitors were excited to see the benefits the pouch filler can offer for small to medium enterprises (SME).
Manufactured in Australia, we wanted to give customers a packaging machine built for our market.

Pre made Pouch Packaging Machine

Model: ADM-DP30 c/w AUGER FILLER & PRINTER

- Simple to operate
- Bag weights up to 2kg
- Up to 20ppm
- Multipurpose built in Functions
- 5minute bag size change
- No tools required
- Startup diagnostics
- Alarm Display
- Maintenance- Clean machine between shifts
- Air required- Dry compressed Air
- Power required- 4.2Kw, 415V
- Air Consumption: 0.3 CUM/MIN 0.6MPA
- Dimension: 2160Lx1920Wx1650H (return)
  3150x1920x1650 (Inline)
